

I signed up on the do not call list so that I don't have people calling me. I don't want bankers to be able to get around this. If I need some kind of service I have access to a telephone book as well as the internet, which mean that I will call the company/service that I am looking for.

I work a third shift schedule. There is nothing more annoying than just getting to sleep around 0800 and having the telephone ring about a half hour later. Since I signed up on the do not call list I have been able to sleep a lot better since the phone doesn't ring all through the morning.

Do not allow the CONSUMER BANKERS ASSOCIATION to call me!!
